787 Huckleberry Finn Rd

Batesburg, South Carolina 29006

803 206 8529

[silverlabpupsforsale.com](http://silverlabpupsforsale.com)

We hope that you will enjoy your new puppy for years to come. We have taken the steps to ensure that your new puppy is healthy. Your puppy has been selectively bred for excellent quality, health, soundness, intelligence and good temperament.

If there is a congenital defect (not including Hips which are genetic) within one year from birth, it can be surgically corrected for less than the cost of a replacement puppy, we will pay the cost of the surgery (not the tests and doctor's visits leading up to the surgery) up to the price of the puppy \_\_\_\_\_. Once the price of the puppy has been reached the owner is responsible for all other costs. If it can not be surgically corrected:

- \* The dog must be humanely put to sleep, and a letter stating such from your veterinarian must be received by us. The letter MUST be certified mail to Silver n the South Kennels
- \* You must send us the dog's registration papers back.
- \* The dog must carry our kennel name in its registration name.
- \* The Dog must have never been used for breeding and still be with the original owner.

After these qualifications have been met, you may choose a replacement puppy (of equal quality), buyer pays shipping, from any litter subject to availability, paying the difference in price if you desire a more expensive puppy. NO CASH REFUNDS ARE GIVEN. Our guarantee DOES NOT include poisoning, accidents or behavioral problems, as training philosophies and environments vary amongst individuals. Our guarantee does not include cosmetic issues with puppies such as over bites, under bites, missing teeth, regrowing dew claws, umbilical hernias. We also do not guarantee viruses, external and internal parasites. We do not guarantee anything non congenital after 3 days from departure of the puppy from our facility.

### HIP DYSPLASIA GUARANTEE:

In the unlikely event that a Creekside Kennel puppy is suspected of being dysplastic in its first two years, this is the procedure as follows:

- \* Notify us by telephone or letter.
- \* Submit the x-ray to the Orthopedic Foundation for Animals, University of Missouri, Columbia MO 65210.

If The OFA finds the dog severely dysplastic then to qualify for a replacement:

- \* The dysplastic dog must be put to sleep by your vet, and a letter from your vet must be sent to us stating that this has been done. The statement must also state that the animal has not been over fed for its height/structure, and has received regular check ups from the vet.

- \* The dogs papers must be sent to us and transferred into our name.
- \* the dog must have been x-rayed for this condition before its second birthday, but not before 1 1/2 years of age. ( Sometimes an early xray will not portray true results during growth spurts.)
- \* No dog will be guaranteed with this health guarantee unless it carries our kennel name in its prefix. The dog must have never been used for breeding, not be over weight and still with its original owner. The dog MUST also be on NUVET the pet vitamin for this contact to be valid.
- \* No replacement will be given if the dog has been over exercised during their growth period ( until 1.5 years), which is running or jumping with the dog in excessive play.

NO CASH REFUNDS ARE GIVEN. No further guarantees are implied either verbally, written or otherwise stated.

We recommend that you take you puppy in for a vet check up with in the first 3 days after receiving the puppy. We, as the breeder have already supplied your puppy with the first set of shots and several dewormings as noted on your health record that is supplied to you at time of pick up. We require you to keep your pup on a regular vaccination schedule and routine deworming by a licensed vet.

As the Breeder, I certify that this dog/puppy is free from illness and defects, and does not appear clinically ill from parasitic infestations. All information provided is true to the best of my knowledge and belief,
